Certification for Accountants and Financial Professionals

The CMA[®] (Certified Management Accountant) is the advanced professional certification specifically designed to measure the accounting and financial management skills that drive business performance in globally active organisations. The CMA[®] is a tailor-made certification program for finance professionals at all levels in order to enhance their value to a current organisation or to expand their career potential. The CMA[®] program allows for participants to proceed with self-study at their own pace. It is designed to be time-efficient and cost-effective.

CMA[®] with CA controller akademie

CMA All Inclusive Package

We are offering an exclusive CMA[®] package between October 2016 and April 2017.

It encompasses the complete CMA[®] Self Study Package as well as a live instructor-led tutorial.

CMA[®] Self Study Package without tutorials

- IMA[®] Application and CMA[®] Entrance fees
- 1 year IMA[®] membership
- Both fees for exams part I and II
- Wiley CMA[®] Learning System Part I and Part II including 2 years access to online CMA[®] Test Bank

CMA[®] 3-Day-Tutorial

- For those of you who have already bought the books and the IMA membership we offer the 3 days tutorial with live instructor-led sessions separately.

Tutorial Profile

The three days of the course will have a clearly defined structure and content covering subjects that are highly likely to be new and difficult to the students. David, our instructor, is himself a CMA[®] and CPA and is writing test questions for the CMA[®] exam. Students highly profit from his experience and excellent hints of how to take the exam. We particularly focus on US-specific topics which are different to the European approach. In addition, the session will review the CMA[®] learning outcome statements to familiarize students for the contents of the CMA[®]. The students will be asked to review these statements and to reflect their existing knowledge. They will be exposed to exam situations and essay writing. This exposure will enable them to sit the CMA[®] exam immediately or, if appropriate, target their further learning efforts more effectively.

CMA[®] 3-Day-Tutorial with CA controller akademie

The three day instructor-led tutorial by CA controller akademie covers topics of both parts of the exam. It prepares participants thoroughly for the exams that are administered through the worldwide network of Prometric Testing Centers.

Participants in the specially tailored CA controller akademie tutorial are expected to be well acquainted with the complete CMA[®] syllabus in order to be able to follow all the subjects and content covered in-depth during the tutorial.

Target group:

- Financial professionals with an education and or experience in finance and controlling
